

Pegasus-Global Holdings, Inc. Adds Vineet Mohan as EVP and CFO

CLE ELUM, WASHINGTON, October 5, 2018 – Pegasus-Global Holdings, Inc. (Pegasus-Global), which provides management consulting services to major construction projects and businesses in the global energy and infrastructure sectors, has announced that Vineet Mohan has joined the firm as executive vice president and chief financial officer.

In announcing the new hire, Pegasus-Global President and CEO William Riggins said, “We’re excited to be adding Vineet Mohan to our growing team of seasoned executives. As we continue to work with clients around the globe, Vineet’s experience on multiple continents will enhance our ability to provide invaluable advice to those involved with high-profile infrastructure projects.”

“Vineet’s background in both engineering and executive leadership makes him an ideal fit for Pegasus-Global and its diverse, international clients,” said Chairman of the Board Dr. Patricia D. Galloway.

Vineet Mohan’s expertise includes mergers and acquisitions, strategic partnerships, business development, equity investments, and the management of multi-billion-dollar P&Ls. He has developed an outstanding record of leading business turnarounds and organizational restructurings as well as winning major competitive contracts.

Mohan has held executive positions at GE, Leighton, and AES with responsibility for major P&Ls, business development, and capital programs. He most recently served as SVP, Global Engineering & Construction for AES and was a member of the executive leadership team, overseeing an \$8 billion capital projects program. This followed on from his role as VP, Projects & Commercial Operations, where he managed business development projects globally across all generation technologies in the Americas, Europe, and Asia. Prior to AES, Mohan held leadership roles at GE and Leighton. He was president of Leighton India Ltd., leading the company’s civil infrastructure, power and ports, oil and gas, building construction, and mining businesses. At GE, he served as managing director, Project Development & Strategic Initiatives for Asia and as regional general manager, Asia Pacific, for GE Energy Services, a business with \$1 billion in annual revenue.

Mohan, a Six Sigma Black Belt, holds an MBA from Edinburgh Business School and a bachelor’s of technology in mechanical engineering from the Indian Institute of Technology. He

also has served on the boards of AES Gener, Fluence, and numerous joint ventures at GE and Leighton.

Pegasus-Global Holdings, Inc.

Pegasus-Global Holdings, Inc. (Pegasus-Global) provides management consulting to major construction projects and businesses in the global energy and infrastructure sectors.
